

Teacher in Mathematics

Struer Statsgymnasium is seeking a high school teacher in mathematics combined with another subject. The job is a full-time position starting on August 12, 2024. It primarily involves teaching IB classes at both higher level and standard level. The language of instruction in the IB program is English, and the program is known for its core academic focus and high academic standards. At Struer Statsgymnasium, we have had positive experiences integrating teachers who have not previously taught in English into our IB program. Therefore, prior experience teaching in English is not a requirement for applying for the position.

Struer Statsgymnasium is a school offering a variety of educational programs: the five high school programs STX, HTX, HHX, HF, and IB, as well as EUD, EUX and 10th grade. The school has a total of approximately 625 students, including a boarding school with 180 students from Denmark and various other countries. As a teacher at Struer Statsgymnasium, you will typically teach on two educational programs, such as IB and STX.

The learning environment is socially integrated and international. As a new teacher at SSG, you become part of an academically stimulating and diverse teaching staff, where there are good traditions of helping each other create a conducive learning and teaching environment.

All teachers are provided with a PC, and each teacher also has their own workspace at the school. There is no mandatory presence requirement.

The school is health-certified and also offers an attractive teacher meal plan with food from the boarding school's kitchen.

You can find more information about the school on our website.

Applications should be submitted as a single document to Principal **Mads Brinkmann Pedersen** via email: struer-statsgym@stgym.dk.

For further information about the position, please contact **IB Coordinator Morten Rødgaard Jensen** tell. **30 35 25 93**.
