

## Change mobile for Microsoft Authenticator (MFA)

To be able to use another phone for MFA, you must do the following:

- Keep the old mobile phone, as it may be necessary to be able to log in with it.
- Log in here <https://aka.ms/mfasetup> on a computer that is on a danish network.
- Erase your phone

Microsoft Authenticator  
Push multifaktorgodkendelse (MFA)
