IB – Bridge building

The IB Diploma is a two-year international upper secondary educational programme offered at Struer Statsgymnasium to young Danes and foreigners from 16 to 19. (In order to make the students ready for the IB Diploma, a preparatory year, the so-called pre-IB has been established, and this will be the course offered to our guests.)

Our guests gain insight into the everyday life as a pre-IB and IB student. The bridge-builders will have their own class and, if possible, their own classroom during their stay.

Presentations
The bridge builders will get a presentation of most of the subjects studied in pre-IB and IB. (Therefore, the following subjects will be part of the bridge building course:
Danish - History - Mathematics - English - Music/Visual Arts - TOK - the natural sciences and the human sciences).

We try to make sure that the week of bridge building is as close to a normal pre-IB/IB everyday life as possible. This means that the bridge-builders will be met by the same demands and expectations as our own students.

Finally, Struer Statsgymnasium has a boarding school, which we would be glad to show our guests.

Supervision during the stay
During the stay at Struer Statsgymnasium, we offer the bridge-builders individual supervision through talks with both students and our student advisor at the beginning of the stay. During the stay, the student advisor and the IB coordinator will be glad to sort out any questions that might occur. By the end of the stay, all students will have a final talk with the student advisor.

We have a boarding school that we are happy to show our guests.

For more information look at Struer IB homepage www.struer.gym.dk

Bridge building - International Baccalaureate (IB) School is in week 46, 47 and 48 Monday and Tuesday. It starts at 8.00 and ends at 13.15.
Address: Jyllandsgade 2, 7600 Struer - just across the station.

On the first day we will welcome you in the assembly hall (Vandrehal). Walk straight through the main entrance and through the next line of doors (db. Doors) and you will be there.

Of course we expect you to arrive on time every day and to participate actively in class. You will have to bring paper, pencils and a calculator, if you have one.

In the event of illness or absence, you must call the school at 97854300 to report it.

There is a canteen at the school where you can buy food. You can pay with bank card or MobilePay.
