Boarding School Fees

Version September 2026

Valid for the Academic year 2027/2028

Regulations on boarding school fees for students at Struer Statsgymnasium

1. What does the fee cover?

The annual boarding school fee is set for one year at a time. The fee covers board and lodging excluding the holidays: summer, autumn, Christmas, winter and Easter. During the holidays, the boarding school is closed. Students must apply, if they wish to stay during the holidays, and they must pay DKK 600 pr. Week or DKK 150 pr. day. During the holidays, the kitchen is closed. If a guest stays overnight in the room, the same amount is charged as for a stay at the boarding school during the closing periods.

2. How to pay the fee?

The annual fee is payable in ten rates starting August 1. A student who moves in after November 1, 2027, will also have to pay a rate for June 2028. In case a student moves out, he/ she must give the administration office a month's notice in writing by the 1st of a month. Upon departure, the room will be inspected by the staff. Any damages or missing items may result in additional charges. In case a student moves internally at the boarding school from one room to another, the student must pay DKK 500.

3. Age makes a difference.

The fee depends on whether the student is over 18 or not.

3.a Students over 18

For all students over the age of 18, the payment is DKK 48 000 for a school year. Danish students who live at the boarding school can apply for "Statens Uddannelsesstøtte for udeboende" (SU) after the quarter in which they turn 18. The students entitled to "SU for udeboende" pay DKK 48 000 for a year's stay at the boarding school in 2027/28. Regardless of the parents' income, the SU is higher than the boarding school fee, which covers board and lodging during the school year, excl. the school holidays.

3.b Students under 18

The annual fee is calculated based on both parent's documented total income in the second calendar year before the year in which the school year starts. Thus, for the school year 2027/28, the parents' income in 2025 provides the basis for the calculation.

The basis income consists of the student's and the parents' personal incomes in addition to the positive return on capital, as stated in the tax return. *It applied to the 2026/27 school year; student income below DKK 54 100 was not included.*

4. International students

Before calculating the boarding fee, an amount is deducted from the parents' income basis for each of their other children who have not yet turned 18 at the start of the school year. *For the 2026/2027 school year, this amount was DKK 43 086.*

The parents' basis income is their shared income if they are married or share the same address without being married. If the parents are divorced, separated, or if the parents are not married and do not share the same address, the income of the parent closest to the student (i.e. the parent who has custody) will be used. In case of joint custody, the parent who shares the same address as the student is considered the parent closest to the student.

Students who lived abroad or whose parents lived abroad and did not or only partially paid income taxes in Denmark during the income year, which is the basis for calculating boarding school fee, must document their gross income in the second calendar year prior to the year in which the school year begins - i.e. for the school year 2027/28 it is the income in 2025 that is decisive with information from the tax authorities in the country concerned.

The school must receive the required documentation by **April 1, 2027**, to calculate the reduction.

If the school receives the necessary income documentation after 1 April 2027, the boarding school is entitled to charge the highest fee.

In case of insufficient information on the parents' income, the maximum fee of DKK 48 000 is charged.

5. Administration fee

There is an administration fee of DKK 1 750.

When registering at the boarding school, an administration fee of DKK 1 750 is charged. The student is enrolled when the administration fee is paid.

The administration fee is non- refundable.

The latest version of 'Payment Terms for the 2027/28 School Year' can always be found on the school's website.

Annual fees 2027/2028

The yearly boarding fee as of the end of the quarter in which the student turns 18 and is entitled to SU
DKK 48 000 paid in ten rates between August & May

The yearly boarding fee for students under 18
Annual fee to be paid in ten rates between August & May
